

In th Claims:

Please replace amended claim 1 as submitted in the Preliminary Amendment of April 1, 2002, with the following amended version thereof:

Sub C1
B2

1. (Twice Amended) A method for intervention of $\gamma 2$ chain interactions of invasive carcinomas with surrounding tissues by exposing an invasive carcinoma to anti- $\gamma 2$ chain antibodies against the $\gamma 2$ -domain III chain of laminin-5.

Please add new claims 7, 8, 9, 10 and 11, as follows:

Sub C1
B2

7. (New) The method of claim 1 wherein said exposure of invasive carcinomas to the antibody against the $\gamma 2$ -domain III chain of laminin-5 is *in vitro*.

8. (New) The method of claim 1 wherein said exposure of invasive carcinoma to the antibody against the $\gamma 2$ -domain III chain of laminin-5 is *in vivo*.

9. (New) The method of claim 1 wherein cells of the invasive carcinoma are inhibited from migrating upon exposure to the antibody against the $\gamma 2$ -domain III chain of laminin-5.

10. (New) The method of claim 9 wherein the antibody is monoclonal.

11. (New) The method of claim 9 wherein the antibody is polyclonal.
